State Wide Move To Restrict Deer Killing Presaged

Sportsmen Aroused At Wholesale Deer Slaughter On First Day

SECURE INJUNCTION IN LUZERNE COUNTY

May Seek Closing Of Open Season At End Of First Week

(International News Service)

HARRISBURG, Dec. 2.—With a heavy toll in human life added to an unprecedented slaughter of buck and doe deer on the opening day of the 1931 season, concerted, state-wide action to restrict deer killing to the male species was presaged today.

Designed to protect farm crops from destruction and to more evenly balance the Pennsylvania herds, the decision of the state game commission to permit the killing of male and female deer was under fire in several quarters.

Injunction Granted.

The Wilkes-Barre campe of the United Sportsmen of Pennsylvania took definite steps to nullify the game commission's ruling by obtaining a temporary injunction prohibiting the slaying of does in Luzerne county. Hearing on the injunction is set for next Mnoday with mem-

PA NEWC OBSERVES

Airplane rides may be fun, but Pa Newc would rather take his in the warm month of June. The pilot who guided the plane over New Castle headed east Tuesday afternoon at 2:15 had cold ears, we bet.

Pa Newc noted what might be turned a "coupe moving van" yesterday. The men in the car had a bed, mattress, springs, etc., tied up over the back of the coupe, and the car was moving along at a rapid rate. Perhaps the men in the car were bound for the big game district and were taking a bed along.

Suspect Winter avenue folks are getting the Christmas decorations dusted off once more. This street has been especially well lighted with Christmas decorations for several years past in the holiday season and this year will probably be no exception. There are several other streets that were pressing Winter avenue hard for laurels last holiday season, and we expect there will be even stiffer competition this year. With the improvement of Laurel Boulevard by paving of the two cartways this street offers a wonderful opportunity for Christmas decoration this holiday season.

The committee has designated 2 o'clock as the starting hour for the charity football game on Saturday afternoon, instead of 2:30 o'clock as originally announced. Pa Newc be-

Local Woman Hunter Bags Deer On First Big Game Quest; Men Have No Success

The ladies have all the luck—or four New Castle hunters who trailed big game in Forest county thought that way today.

Up in the wilds near the Forest-Elk county line, where sportsmen the state over had gathered to spend the day, Mrs. Arthur Ault, Glass street, proved her skill in bagging game. She brought down a 135-pound doe not long after her party had entered the woods.

Mrs. Ault's husband and three other district hunters, James Ault, New Galilee; Harry Druschel, Shenango township, and Frank Druschel, North Beaver street, found their day's hunting fruitless.

They hunted all day long, but no deer could they get. Mrs. Ault was 200 feet away from the men when she shot down the doe.

Mrs. Ault's husband recalled that his wife has hunted rabbits in the local woods, but never had she hunted big game.

The party of five went to near Marionville for the opening of the season, returning here last night.

MRS. BERT JAMES SHOOTS LARGE DOE

Although Mrs. J. Bert James of North Ray street has been a hunting enthusiast for years, (bagged ten bunnies this season), Tuesday marked her first try at big game.

Early yesterday morning she and her husband and a party of hunters from near DuBois started out hunting in the Clearfield county woods.

By noon Mrs. James had killed a doe—and quite the nicest doe seen this year.

City's New Fire Engine Covers Ground Quickly; Pumper Gets Stiff Test

When a fire alarm sounds from some upper North Hill box after the new American LaFrance engine is placed in service at the Park avenue station, residents needn't have any fears that fire-fighters won't arrive quick enough.

Ample proof that the Second ward's newest piece of fire apparatus is capable of reaching any section in the Second war as fast as the swiftest engine could, was shown in another official test which firemen put the new truck through today.

Bundled in warm togs, Fireman Charles H. Lynn and firemen from the Park avenue and Central departments spent considerable time this morning in the Fairfield avenue district taking tests of the pressure of the new engine's pumper.

Highland avenue residents probably saw the old and new fire trucks dashing out toward the city line, the newer truck progressing gracefully along behind the older engine it is intended to replace.

There was a marked contrast between the two as they sped out Highland avenue, merely on a trial run.

Test On Fairfield

Arriving at Fairfield avenue, firemen laid a hose nearly two blocks long to inspect the actual pressure of the engine's pumper. The old engine has no pumper.

Four long hours were spent in

Booster Club Holds Benefit Performance In High School To Aid Unemployed

(Special To The News)

BESSEMER, Dec. 2.—Bessemer's needy folks will benefit materially as the result of a show sponsored by the Booster Club of Bessemer last evening in the high school auditorium, which resulted in a large amount of food and clothing being contributed. The attendance was around 600.

Admission to the entertainment was in the form of articles of food and clothing, and there was a liberal response, donations running anywhere from a bar of soap to a sack of flour, besides money, and many usable garments.

Eight reels of moving pictures were shown, and musical numbers were rendered by Johnny Bryan's orchestra from Bessemer while Joe West of New Castle entertained on the occordion.

At the conclusion of the program, a brief address was given by C. D. Montgomery, president of the Booster Club.

Arrangements are being made to solicit broken toys which will be repaired and distributed at Christmas time by the Boy Scouts.

Give Part Of Christmas Funds To Mayor's Relief

Suggestion is made today by officials of the mayor's relief fund that would be materially aided if every person receiving their Christmas fund check from the banks this week contribute but one per cent of the amount they receive to the fund.

This in itself would be but a small amount of money, but collectively it would total around $2,800. If a person receiving $50 would give one per cent of their check to the mayor's relief fund, it would only amount to 50 cents, yet one per cent from everyone would make a neat sum. The Christmas savings funds being distributed by the banks at this time amount to approximately $280,000.

The fund today totals $3,104.22 as a result of contributions made during the past two days.

In addition to money, the fund was swelled today by the donation of potatoes by Lawrence county farmers. Purchase was made of 25 bushels of No. 2 potatoes from the T. A. Gilkey farm at a price of 25 cents per bushel, and in addition, five bushels were donated. Potatoes were also purchased from the A. E. McCreary farm on the Neshannock Falls road, and Mr. McCreary made a donation of a quantity of No. 3 grade potatoes.

Local citizens who have not as yet contributed to the mayor's fund may do so by filling out the attached coupon and bringing or sending it to City Treasurer L. W. McClung, who is treasurer of the mayor's relief fund.

Local Minister Bags Large Deer

The congregation of the Church of the Nazarene will likely be eating venison in the near future for their pastor, Rev. Charles F. The deer weighed one hundred and fifty pounds.

In the party with Rev. Whetsell are Harry Moore, Lloyd Moore, Charles Kare, John Hites, and James Allen.

By ARTHUR C. WIMER
Special Washington Correspondent Of The New Castle News

WASHINGTON, Dec. 2.—On the opening day of Congress, Representative J. Howard Swick, will introduce into the House of Representatives a bill calling for the improvement of the Beaver, Mahoning and Shenango Rivers.

Last session Congress authorized the army engineer to make a survey of the rivers to determine what improvements should be made in order to bring about their navigability, this survey has been completed and Congress will likely be given the figures by the chief of the engineers early in the coming session.

It is understood from rather authoritative sources that the engineer chief will recommend improvement of the streams.

The bill to be introduced by Mr. Swick will call for the actual improvement of the rivers as may be recommended by the chief of engineers.

CHICAGO, Dec. 2.—Awarded the titles of healthiest boy and girl in the nation, Gertrude Heikes, 15, and William Sanders, 16, today modestly received the congratulations of hundreds.

Neither could explain how they managed to annex the 1931 national health crowns, awarded annually by the national 4-H clubs. They had no rules to offer about what a person should eat, drink or smoke. They never paid any attention to their diets. They just lived simply.

Both health winners were reared on farms. Miss Heikes, a pretty and plump girl of brown eyes and clear skin, hails from Dakota county, Nebraska. Young Sanders' rural home is in Johnson county, Indiana.

No Donations Of Deer Yet Made To Mayor's Relief

Many Deer Have Been Shot By Local Hunters, Early Reports Show

Although the deer season has been under way but two days, a great number of deer have been secured by local hunters, some of them of a good size.

So far, however, none have been donated to the mayor's relief committee for distribution among the needy people of the community.

Last year, many deer were turned over to the committee and were distributed among those needing assistance. Adolph Lang, local butcher, has offered to cut up the deer free of charge and the committee is yet awaiting the first donation.

mum, 39.2 degrees. In 1930, the temperature was eight-tenths of a point above the normal amount, the early part of the month being almost as warm as it was this year, but exceptionally cold temperatures around Thanksgiving time pulled the average way down. The highest temperature recorded last month was 75 degrees on November 21, and the lowest was 28 degrees on November 27. The greatest daily range was 36 degrees on November 10 and 25.

The total precipitation during the month was 2.57 inches. The normal for November is 2.16 inches, the excess over last year being .41 inches. In 1930, their was a deficiency of .78 inches, the total rainfall for the month last year being but 1.38 inches. Curiously enough, the amount of snowfall was the same this year as last, being 2.9 inches.

During November this year, there were 24 days with .01 inches or more of precipitation. Days clear were nine, partly cloudy, 10; and cloudy, 11.

lieved that 1:30 o'clock would have been a good starting time, but 2 o'clock is far better than 2:30 as originally designated.

Christmas seals are being sold in the city and county in quite a commendable way. The money realized from the sale of these seals is for a most worthy cause, one that deserves support more than ever this year. In times of undernourishment and privation, tuberculosis gets in its worst licks, we are told. Hence, support for this battle on the spread of tuberculosis should receive county wide support this season.

Reports reaching the city from the big woods indicate that the hunters put a big crimp in the deer population of the state yesterday. In no hunting season in the history of the state has there been such a first day slaughter. Many of the local hunters are bringing home a deer as a result of the first day's hunt.

Most every organization in the city at the present time is making plans to spread Christmas cheer to some of the needy during the next few weeks. Wonder how much of a Christmas fund Pa Newc could raise if the limit of contributions was placed at ten cents. Maybe enough of a fund for the Pa Newcers to bring real Christmas cheer into some very needy homes here. What do you say?

A year ago today, we were enjoying another nice little cold snap, when the thermometer got down to five degrees above zero. It took it several days to get back to normal. Local deer hunters will remember this fact more clearly than lots of other folks.

Many of the New Castle hunters who went to the big woods for the opening of the big game hunting season yesterday, are already back in the city with their deer. The supply of deer was most plentiful, hunters report, and it was not difficult to bag one early in the day.

Among those who are working on the Neshannock Creek bank today is a man who has actual experience as a stone mason, and the benefit of his experience along these lines is plainly evident. There is just a little more finesse to his work than that of those who have never done any work along this line before, in spite of the fact that lines are kept to guide the men building the wall.

CITY'S NEW FIRE ENGINE GETS TEST

testing the pump's pressure yesterday at a local mill. City officials were present.

With the firemen today when the test was made was Samuel Smith, mechanic of the American LaFrance company, Elmira, N. Y., manufacturers of the truck. Fireman Hugh Horton of the Park avenue department drove the new engine.

It is believed that the city will officially accept the new engine shortly. Until then the old truck will serve at the Park avenue station.

Probabilities are that Fire Chief Charles Lynn will assign the new truck to the Second ward department, either Friday or Saturday and the truck now in service in the Second ward will then be sent to South Jefferson street station.

The new fire apparatus was tested at the Shenango Tin mill yesterday according to Counciliman Clayton Reeves, director of public safety. He said the performance was fine. It was put through a test prescribed by the Underwriters association.

Over Two Thousand Have Applied For Assistance Here

Files Of Mayor's Relief Clearing House, Swelled By New Applications

Applications for assistance through all sources, including the county, now total 2,047, it was revealed this morning at the office of the Associated Charities, which is acting as the clearing house for the Mayor's Relief committee.

All pearsons making application for assistance are recorded at the central office and the results of the investigation into their circumstances is placed upon a card.

This index thus enables anyone desiring information about any needy family to secure a report upon them in an instant.

Church organizations who are assisting families throughout the city, should send a report of this fact to the Associated Charities so that it can be placed on record to avoid duplication of endavor.

It is a known fact that many church organizations and societies are now helping families, and if this information could be supplied the Mayor's Relief committee, it would be of material benefit to them.

There is going to be such a big demand for assistance this winter, that all resources should be conserved as much as possible, heads of the Mayor's Relief committee point out.

And so she's been Cali Fornia ever since.

PINCHOT SALVAGES FEW FEATURES OF RELIEF PROGRAM

(Continued From Page One)

one cent per gallon for 15 months. This replaces the administration—proposed tax of two cents per gallon for two years.

Two Bills Scraped

Two of the governor's favorite measures, the 'prosperity bond" issue and tax on billboard advertising went into the scrap heap.

Governor Pinchot, in approving the compromise measures with faint praise—"good so far as they go"—firmly believes "they do not cover the ground." It was reliably reported that in addition to the proposals which the senate leaders promised to support, the executive plans also to push his prosperity bond and loan contribution method of raising $35,000,000 additional to be expended by a new state commission. The senate leaders turned thumbs down on both propositions and told the governor they believe those measures cannot pass.

Adjournment of the special session before Christmas now appears likely as a result of the compromise. Leaders will strive to wind up their work by December 17. If that becomes impossible, December 23 is likely to be the closing day.

Building Project

One entirely new construction project is included in the relief items approved by yesterday's conference. It is an appropriation of $1,000,000 for erection of a fourth state tuberculosis hospital, which is to be built in an undesignated northern county.

Other appropriations in the program are: $2,000,000 for state aided hospitals; $250,000 for state-owned hospitals; $100,000 for the veteran's commission; $2,500,000 for emergency relief work to be spent by the governor, auditor general and state treasurer; $12,000,000 of gasoline tax receipts to be allocated among counties for road and street improvements; $2,332,000 increased sums to state departments for purposes mentioned in last year's appropriation bill, and $366,553 for expenses of the special session. If the session adjourns before Christmas, the entire sum in the session appropriation bill will not be needed as that sum approved by the governor yesterday is sufficient to pay cost of a session to January 28.

Reappropriation

In addition, the program includes reappropriation of $1,150,000 balance for additional work at Pymatuning Dam, but this item requires no new revenues as it is part of a larger sum appropriated at the regular session.

The program, as outlined, provides funds for new projects it includes, without a deficit. It does not take into account the $10,000,000 the state is expected to receive through refinancing of the Philadelphia-Camden bridge, that sum will be available to meet an anticipated deficit in funds not affected by the special relief projects.

In addition to the $20,500,000 state expenditures, the new program includes authority for local governments to borrow up to 60 per cent of uncollected delinquent taxes. A companion bill of the Pinchot program is to be amended to permit appropriations by local governments to poor districts, but to prohibit the levy of new and special relief taxes which the original draft would have authorized.

Amendments to bills to make them conform to the new program will be ready for presentation when the two houses resume session next Monday night.

JAILED FOR FEEDING STARVING FAMILY DEER HE FOUND

OIL CITY, Pa., Dec. 2.—Victor Baney of Petroleum Center, on the verge of starvation, was sent to Venango county jail today to serve 106 days because he picked up a portion of a deer which had been killed by a train near West Hickory 12 hours before the deer season opened.

Baney, out of work for months, his family hungry, came upon the mutilated deer, which, according to report, had been discarded by an officer who had investigated.

A deputy game protector then filed information against him for having illegal deer in his possession.

Baney pleaded guilty before Alderman Kern. The magistrate sentenced him to a $100 fine and costs, or 106 days in all. Baney started the term today at Franklin.

SECOND ARREST IS MADE FOR HOLD-UP

Make Trip to Home

Earl today the county detectives, Lee and Rocks with City Detective Logan and Policemen John Moore and Tommy Lynch made a hurried trip to the home of Orabinec at 15 Walter street. They searched the lower part of house and upstairs but did not find the wanted young man then decided to search an attic.

There was only sufficient space for one man to crawl into the attic. Policeman Lynch who is slender and supple was boosted through the attic opening. He crawled in then looked around the attic. He did not see Orabinac but took notice of a suspicious space behind a chimney.

Crawling over to the chimney he espied a small cupboard in which the wanted man was hiding. He ordered him out of the small cupboard and he was taken in tow.

Report Confession

He was taken to city police headquarters and questioned. According to County Detective Lee and Police Chief Horner, Orabinec confessed to having participated in the robbery.

The alleged highway robber was then taken to the office of Alderman L. C. Mantz. He was held for December term of court.

When Orabinec was taken to the county jail, Adams was informed that Orabinec had confessed and had implicated him. Adams denied to officers he had participated in the robbery.

According to Chief Horner and County Detective Lee, Powell rode in an auto bus on North Jefferson street, November 14. He left the bus at the corner of Moody and Wilmington avenues.

He started through a dark section toward his home and was attacked, it is said, by several men. He was knocked down and $240 he claims taken from him.

City police and county detectives immediately started working on the case, which was followed by the arrest of Adams and Orabinec.

STATE WIDE MOVE TO RESTRICT DEER KILLING PRESAGED

(Continued From Page One)

bers of the commission, as respondents, scheduled to appear before Judge B. R. Jones and show cause why the restraining order should not be made permanent.

Commenting on the action of the Wilkes-Barre group, James McCabe, counsel for the Wilkes-Barre camp, pointed out that such action logically may lead to similar moves by various camps of the organization in counties throughout the state where deer are plentiful.

McCabe revealed that his course was discussed at a meeting of the state organization last week and it was decided to act first through the Wilkes-Barre camp. In the event the Wilkes-Barre group is successful in obtaining a permanent injunction it was believed other local camps in the deer counties would take similar steps, backed up by the prestige of the state organization.

Fail to Comment.

Ross Leffler, chairman of the game commission, and the entire personnel of the commission were in New York today attending a meeting of the American game commission conference. In their absence, attaches of the state game commission at Harrisburg declined to comment on the protests.

Several times in recent weeks, before the season opened, groups of sportsmen petitioned Governor Gifford Pinchot and the game commission to rescind its decision on the open season. These petitions were rejected definitely when Governor Pinchot pointed out that the matter had passed beyond the rescinding stage—that such rescindent, legally, must be advertised in advance of the season opening.

McKean county in the northwest and Monroe county in the northeast both densely populated with wild game, have led with protests against the open season. From Kane, in Mckean county, today came a report that sportsmen planned to appeal to the governor to close the season at the end of the first week to prevent the ruin of big game hunting in the northwest region.

(Continued From Page One)

agreement is reached in the meantime by the Chinese and Japanese governments, according to indications here today.

New Clashes Imminent

Foreign observers expressed the belief that new clashes were imminent in view of reported Chinese troop concentrations in both north and south Manchuria.

Japanese military headquarters here said that Chinese regulars and irregulars east of Tsitsihar now numbered 20,000 and that recruiting was still going on. General Ma Chan-Shan was believed to be in command of these troops.

Japanese airplane pilots reported along the Peiping-Mukden railway there were large Chinese forces, consisting of two infantry regiments, a cavalry brigade, an artillery battery and four armored trains, while anti-aircraft positions were being constructed south of Koupangtze. The Japanese also suspected other Chinese troops were concealed in 22 trains left standing on the railroad tracks between Koupangtze and Tahushan.

CHRISTMAS PARTY OF S. OF D. GIRLS

Christmas parties are beginning with the month of December and one of most pleasant associations was that of Tuesday evening when the members of the S. of D. Girls and guests, assembled in the dining room of the Central Presbyterian church for a tureen dinner.

Small Christmas trees, red tapers and poinsettas decorated the tables and added a Christmas spirit to the party. Covers were arranged for fifty five at the tables and a delicious menu was served.

Concluding dinner the entertainment took the form of a radio program, with the broadcasting done from station W. E. E. P. with Mrs. Esther Decker as the announcer and peal after peal of laughter filled the room as the different numbers were announced and given.

Mrs. Madeline McCollum gave a piano number after which some splendid kitchen hints and household suggestions were offered by Mrs. Hilda Joyce; these were full of humor; Mrs. Sylvia Sturdevant sang a mountain song; Mrs. Theodore Aiken gave a grand opera solo; Mrs. Edith Allen gave a talk to the kiddies; Mrs. Gertrude Festoso portrayed Miss Elocution in a reading; Mrs. Lousia Dwyer gave a gardening expert talk.

The Cowlimp County Calamity Trio, Mrs. Margaret Kennedy. Mrs. Bessie Allgier and Mrs. Ethel Anderson, made a hit with their numbers, and the program closed with a solo by Mrs. Margaret Travers.

Mrs. Bernice Hague, as Santa Claus, was in charge of the gift exchange and after singing "Good Night Ladies" the group left for their homes.

VICE PRESIDENT CURTIS TO RUN AGAIN

VICE PRESIDENT CURTIS has made up his mind. He will run again for the office he now holds if the Republican National Convention renominates him. Doubtless it will, along with President Hoover. Except for a few Insurgents of the Norris order, there is no real Republican opposition to Hoover, and even their opposition is merely vocal. They are well aware that a third party could have no show in next year's campaign.

Mr. Curtis has been looking over the field for some months. Washington correspondents have said of him that he was studying political chances; that he was weighing the vice presidency in one balance and the Kansas senatorship in the other; that if he felt that the outlook for Republican success next year in the nation was doubtful he would seek the nomination for senator in the belief that he could carry Kansas in any event.

If there is truth in these stories, his decision in favor of the vice presidency may be taken as an indication that he believes that the Hoover administration will be sustained by the country. Had he decided upon the senatorship, Democratic leaders would have hailed it as an evidence of lack of faith in the ability of the Republican party to win. He has refused to give them the opportunity that they had hoped for.

CALM LIFE THE HAPPY LIFE

Are you a victim of moods?

Do you experience blue Mondays, despairing Tuesdays, exalted Wednesdays, enthusiastic Thursdays, weary Fridays and impatient Saturdays, not to speak of exhausted Sundays? If you do you are wasting your vitality, muddling your work and wrecking your happiness.

Perhaps every one of us is more or less given to fits of exaggerated, uncontrolled emotions. Especially this may be true of those whose employment exacts nervous drain. When these periods of depression, or anger, or egotism become frequent the unfortunate victim is styled, in the common parlance, tempermental. And to be thought temperamental is to be thought a bit "queer," or unbalanced, which is perhaps the truth.

Yet there is none of us that cannot if he will, control his emotional processes and conquer his moods. Subduing the moods is not merely a matter of exercising valiant will-power, though that has its place. It is for many of us a matter of exercise and fresh air, good food regularly eaten, good books regularly read, temperance in most things, and abstinence in some. Sensible living strengthens the power of self-control and simplified the problem.

If Monday are usually blue, try a new regimen next Sunday. Arise early, eat regularly but not too much, find mental and spiritual poise at your church service or from a good book or, better, from both. Walk out to the fresh air. Above all do not exhaust yourself in a wild search for recreation. Sensible Sundays make bright Mondays.

"Moods" are nature's danger signals.

HOOVER AND ECONOMY

With the federal treasury deficit growing at the rate of $5,000,000 to $7,000,000 a day the reaction of the people is not that the Hoover administration is extravagant but that President Hoover's policy of rigid economy is all that stands in the way of a still larger deficit. Although heavily burdened with taxes and facing new levies the taxpayers in general believe that the administration is cutting expenses to the bone.

President Hoover is personally responsible for the lopping off of $350,000,000 from the budget estimates which will be presented to congress when it convenes. From the war department's appropriation $40,000,000 was cut without impairing the national defense or curtailing the non-military activities of the department, which include development of rivers and harbors. In other departments the pruning job was not less successful.

Higher taxes are inevitable unless business makes an unexpected turn for the better, but every taxpayer may depend upon it that President Hoover will neither recommend nor approve tax measures that go beyond the emergency needs of the government. Pork-barrel politicos are not to be given a free hand in dipping into the people's purses.

In such parlous times as the present it is a matter of public interest that the country has a chief executive who is pledged to rigid economy and holds sacred his political promises.

TIME PROBLEMS ELSEWHERE

Michigan has a law which adopted Eastern standard time for the state, leaving to the several communities the determination whether Eastern or Central should prevail for local commercial and social usage. Under federal division, part of the states lies in one zone and part in the other. Wisconsin law prohibits the use of anything but Central time in that state. It now opposes any rectification of frontiers which would increase the disparity between its own practices and those of its immediate neighbors. An official communication to that effect has been forwarded to the Interstate Commerce Commission, which has been contemplating a revision.

The problem is admittedly difficult, notably where the border line runs close to populous centres as in the case of the Michigan peninsulas. A western extension of the Eastern zone would embrace considerably more territory than meridan locations warrant. But the desire for uniformity in compactly settled regions has led the commission to investigate the desirability of this change.

Wisconsin feels that her inclusion in the Eastern strip would be literally an anachronism. Politically, there is no doubt of it.

WHY ADVERTISED GOODS SELL

There are many reasons why advertised goods sell best. In speaking of nationally advertised goods, for example, travellers are able to purchase the same brand of cracker in the East as in the West, in the North as in the South—and all of them are equally good and crisp.

And the same principles apply to all merchandise and goods made or sold locally. The buyer knows that a local advertiser is ready to stand behind his product because his advertising is proof of his confidence.

The advertiser is known and has pledged himself to stand back of his merchandise. He has given his printed word to the general public and must keep it. It is the mark of good faith and is recognized by buyers the world over as such.

Almost without exception, all of the improvements in packages, or other containers have been the direct outcome of advertising.

There is not much to be said for the individual who gets most enjoyment out of seeing others work.

All Of Us

Give Me the Cheerful Liar
He Saves the Bitter
He Gives Us the Sweet

By MARSHALL MASLIN

It's weakness, I know.

It shows that I don't quite dare to face the terrible facts.

But give me the Cheerful Liar.

He knows that I need help. He gives it to me. Ke knows I'm wavering and discouraged. He produces a helping hand. He tells me something I'd like to know, something he knows will comfort me. He says I'm a fine fellow, a brave heart, a great help.

The liar! He's lying and I know he's lying. That compliment he passed to me was never spoken by mortal lips before it passed from his. He made it up, right then, on the sharp spur of the moment. That's what he did, but I don't care. That good, Cheerful Liar has warmed me and given me courage. He's a friend in need.

He tells me cheerful lies so I'll be grateful to him and take him for his compliments and his cheer? Perhaps you are right, but what if you are? The Cheerful Liar is helping me along, and he' help you, too, if you were here. Somehow he looks differently at the world. He sees it as a jolly place, but thickly populated by people like him.

Why shouldn't I like him? He isn't all that he ought to be, perhaps. He's vulgar, he's loud, he's not always as scrupulous as some people are. He isn't brilliant. But his mouth isn't tight, his eyes aren't suspicious, his heart isn't cautious. He's a Cheerful Liar and he adds to the joy of the world, just by being in it.

I can forget all those others—those sad beings who measure life and pare it to the minimum. I can do without those useful citizens with the sour and calculating faces. The world may need them.

The world, it well may be, could not do without them. When the great moment comes and there is need of a man who can rise to heroic stature and live forevermore, one of those silent bitter fellows may become the hero of his time. But now, right now, for our common and earthly life with all its little troubles and insect irritations—give me that smiling, Cheerful Liar, who gives me the strength to go along!

RE-BIRTH

We're at home once more when the good friends call
And we're back on earth as our natural selves;
Now the patient books which have lined the wall,
Have come to life on their dusty shelves.

Across the way is a neighbor, too,
Who just like the books has stood for years,
Patiently waiting, as if he knew
Some day he would share in our smiles and tears.

We have been away on a mad, wild chase,
Seeking for pleasure in haunts afar;
Now we're back once more at the starting place,
And we've learned how blinding the follies are.

It seems we have come through a strange re-birth,
Or from years long spent on a foreign shore,
To learn the lesson of life on earth,
And to claim the joys which we missed before.

PERSONAL REGARD

Do you permit the opinions that others have expressed about you to weaken or disrupt your opinion of yourself?

In other words are you not influenced too greatly by what people say of you?

Also, is it not apparent to you that you represent little of what you really are, because you have tried too hard to meet a general popular demand?

By so doing you have lessened your regard for your regard for yourself and tried to meet conditions that are unworthy of you.

Popular demand stands out in your mind to the exclusion of worthwhile effort.

You weaken your ability to do more seriously and valuable work by trying to appeal to the shallow public.

Even surface thinkers can be spurred to greater effort, depending upon your ability to stir up ambitions and make them like it.

But you have not enough backbone to launch out against opposition and it makes you belligerent rather than more desirous of improvement in quality.

Very often your family has to take the blunt of these conditions.

Repressing your good impulses by catering to the public you burst out with vehemence in dealing with your family.

So long as you are true to law as expressed in (U. S.) government, be yourself.

Is not political and business unrest in the United States inversely as the number of home gardeners? Much business is transacted on the golf courses, but golf courses are places of competition and rivalry. The business done there is a business of mergers and trades and deals.

Grandi Gains Good Wishes Of America After Visit Here

Italian Envoy On Special Mission Believed To Have Given New Impetus To Friendly Relations Among Nations Of World

Extremely friendly in tone is the comment in American newspapers on Signor Grandi after his recent conversations with President Hoover at the White House. Friendliness to the mission of this masterful Italian, as well as to the man, marks most of the discussion on his visit.

"America extends to Signor Grandi a cordial welcome as foreign minister of a country with which we are on friendly terms, and as a man whose personality, vigor and common sense have done much to impress upon the world's consciousness a new Italian philosophy of peace; his visit writes another chapter in the success of recent diplomacy," asserts the SPRINGFIELD (MASS.) UNION. Declaring that "it is not necessary to endorse Fascism in giving Grandi our heartiest greetings," the MANCHESTER UNION says: "Grandi's visit is the highest honor that he could pay the American government and the American people, and he will not find either the government or the people of this country lacking in the courtesy that this gesture of friendship deserves." The ROCK ISLAND ARGUS views his visit as "distinctly one of good will" and notes that "he has been welcomed here in that spirit."

Commenting on the man himself, the WASHINGTON EVENING STAR says: "Washington has not in years been privileged to entertain a more captivating foreign personality than Dino Grandi. If the world is gradually coming to conduct its international affairs through personal contacts between statesmen, the more Grandis whom governments intrust with their discussion, the better for understanding and friendship among nations." In the words of the OAKLAND TRIBUNE, "Dino Grandi is a man to captivate the public fancy. At 36 this farmer's son has gained renown in the diplomatic world."

Impressed by the traits of independence shown by Grandi, the YOUNGSTOWN DAILY VINDICATOR notes that the young Italian "won his first claim to fame by opposing his chief," and relates the history of that incident: "It was the Fascist party congress in Rome, in 1931, when he was hardly more than a boy, that he dared to object to a decision the party had made on the ground that it was too conservative. It is said that the delegates turned and stared at him in consternation, expecting him to be blasted by the wrath of Mussolini. The hall was in an uproar, but Mussolini calmed the storm, conceded that there was something to what the youthful orator had said, and from that time on Grandi was marked for rise and distinction."

The HARRISBURG TELEGRAPH calls him a "big man in his own right" at the present time, and the SAVANNAH MORNING NEWS says of the latest visitor to our shores: "In war he was distinguished, in peace he has been able and prominent, having been most frequently sent to represent his country and its dictator in foreign conferences and international conversations. His coming adds another chapter to the story Mr. Hoover is writing—of the record of Uncle Sam's activities in world affairs." On this point, the CHICAGO DAILY NEWS states: "All roads, it is said, now lead to Washington. After Grandi and Laval, perhaps, German statesmen will seek an invitation to confer with President Hoover and his cabinet. The more such amicable conferences the better for the cause of peace and constructive cooperation."

"It is the new diplomacy of better understanding," comments the PORT HURON TIMES HERALD. "Personal contact with the representatives of three European nations is the big point that will break down prejudices, adjust differences of opinion, and give each leader a better estimate of the other fellow's problem," contends the NEW LONDON DAY, as it approves the efforts of the administration in employing "the old psychological method of being a good neighbor and a cordial host." The SALT LAKE DESERET NEWS expresses the hope that "the visit of Signor Grandi will be followed by the same kind of friendly understanding which seems to have characterized visits of Premiers Ramsay MacDonald and Pierre Laval."

As to the tenor of the important conversations that have taken place, the PROVIDENCE EVENING BULLETIN records: "There are two items upon which President Hoover and Signor Grandi are in the fullest agreement; one is the need for further reduction in armaments as a means to world recovery and the prevention of future wars; the other is the naval holiday, first proposed by Signor Grandi and acquiesced in enthusiastically by this country." The CINCINNATI TIMES-STAR also sees them in agreemnt, both favoring "drastic reduction of armaments, provided that all nations disarm equally."

The HOUSTON CHRONICLE sees this visit important as giving the administration "a rather concrete idea of how far Italy is willing to disarm in view of the present world situation." As to the world impression made by Grandi, the PHILADELPHIA EVENING BULLETIN dealings with other nations, Italy's desire to make common cause with

Open Season For Pneumonia Here Again Warns Dr. Appel

"For some weeks reports of pneumonia deaths have been reaching the Department of Health in increasing numbers. Which serves to emphasize that the 'open season' for the germ causing that dread disease is here again. And the unfortunate fact connected with the situation is that the people themselves in the majority of instances furnish the ammunition used by this deadly organism. Carelessness is its name," states Doctor Theodore B. Appel, State Secretary of Health.

"As a matter of fact, the one obstruction that public health officials can not surmount is that of personal conduct. No one needs to prove that present-day life, particularly as it is experienced by the average indoor city dweller, is most trying upon even a normal constitution. Unfortunately, modern business and social life appear to demand more exactions than the body can reasonably withstand, if the breaks are not properly applied; and this is becoming increasingly hard to do.

"It is exceedingly smart to whirlwind hither and thither and thus become bright spots in the hurly-burly life which is so much in the mode these days. But nature does not smile upon any type of smartness which tends to reduce vitality and impair health. That type of smartness is indeed the very essence of stupidity.

"And yet it is just that sort of thing to which thousands of persons are addicted. Following their own pleasures, distractions and pursuits, they thoughtlessly reduce body tome and thus through their carelessness hospitably invite the pneumococcus germ to take up residence and do its worst.

"It is perfectly reasonable to assume that if more people would seriously pay attention to developing and maintaining a bodily resistance to disease organisms generally, that the fatal work which pneumonia is now accomplishing could be markedly reduced.

"And if to this could be added due caution concerning drafts, overheated and illy ventilated rooms, wet feet and prompt attention to manifestations of the common cold, the death rate for pneumonia this season could be spectacularly limited.

"It is a great pity that persons who are super-careful about bank accounts, reputations and even regarding many minor and some major health matters, seem to be willing to become vulnerable to pneumania for no other reason than the thoughtless pursuit of their own desires. But it is a fact, nevertheless.

"Until the average citizen realizes that pneumonia is a deadly, devastating and most democratic malady, it will continue to remain a potent killer. It deserves one's full powers of brain and brawn to combat it. Are you taking chances with it this winter?"

Number Of Families Show Big Increase In Ten Year Period

(International News Service)

WASHINGTON, Dec. 2. — The number of families in Pennsylvania increased from 1,922,114 in 1920 to 2,239,179 in 1930, according to figures of the 1930 census, announced Tuesday by the director of the census.

In 1930, the population of the average family was 4.3 persons as compared with 4.5 a decade ago. In 1930, the census bureau announced 1,076,770 families, or 48.1 per cent of the total number of families, reported to the bureau possession of radio sets.

In making its count, the bureau tabulated as a "family," any group of persons whether related by blood or not, who resided together as one house-hold, usually sharing the same table.

Delaware county reported the greatest number of radio receiving sets distributed on a family basis with a percentage of 67.9 the lowest percentage, 16.8, was reported by Fulton county.

CITY ARCHITECTS DRAWING SKETCH FOR LOCAL P. O.

Actual Sketch Is Started By Eckles Firm; Announcement Welcome

Architects here today spoke cheering words when they announced that actual work has started on the preliminary drawings for the city's new postoffice structure, a complete appropriation for which was authorized by congress some time ago.

The W. G. Eckles company, drawing the plans, will direct a large amount of attention to the federal project that construction might be hastened. However, the planning task will require considerable time. No estimate was made as to how long it may take.

The city's quota for ground and building amounted to $525,000. Negotiations are under way at the present time for the acquisition of the public square site.

The new building will stand, once completed, on the southwest section of the diamond.

them in the rehabilitation of the continent from the shocks and strains and the material losses of the war. He has constantly echoed the assurance of his government that Italy desires and needs peace to accomplish its program of progress, and its pledge that it will go as far as any other nation in reducing the burden and menace of competitive armament."

The BALTIMORE SUN finds it an interesting coincidence that "on the very day Dino Grandi arrived in Washington for a discussion of troubled questions relating to armaments and security, the armament holiday which he sponsored before the League of Nations council becomes a reality." This paper points to the significance of this in connection with the disarmament conference in Geneva next year, remarking: "If even a single complication is eliminated by the postponement of new construction in the period before the conference meets and during which it will be in session, the gesture will serve a useful and practicable purpose."

As the SIOUX CITY JOURNAL concludes: "Today Italy is ranked high as a world power, and, because of that country's activity in the interest of international adjustments for better understanding, Signor Grandi's visit it viewed as an important development."

MY NEW YORK
BY JAMES ASWELL

By Central Press

NEW YORK, Dec. 2.—What few New Yorkers know:

That there is an old tree in front of the Lafayette theater, in Harlem, which black and white actor-folk of the district believe has a certain power to bring bookings when leaned against properly.

* * *

That, according to Mrs. John King Van Rensselaer, there never were more than 38 families in town with "authentic blue blood" in their veins.

* * *

That upstate motorists in certain districts have to be careful driving at night lest they collide with deer—and that in such accidents the animals often get the better of the meeting.

* * *

That the walls of the Aquarium are nine feet thick, the doors twelve feet high and seven inches thick, studded with enormous iron bolts—all, presumably, to keep the fish from getting out.

* * *

That the world-famous cherry trees around the Tidal Basin in Washington, D. C., bear no fruit.

* * *

That people more than seven feet tall have difficulty getting life insurance.

* * *

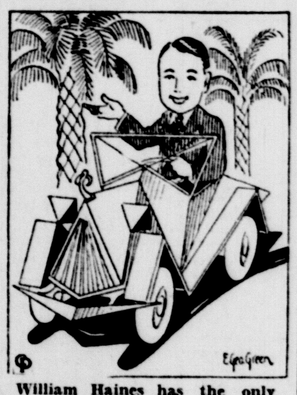

That on December 5 "Hamlet" will be performed simultaneously on three Broadway stages.

* * *

That after town and country estates, yachts, racing stables and fleets of limousines have been acquired by the modern Manhattan millionaire he buys himself a southern plantation.

* * *

Some of the better known South Carolina places are E. F. Hutton's, at Green Pond; Benjamin Kittredge's "Dean Hall"; Percy K. Hudson's "Clay Hall."

William Haines has the only futuristic automobile in Hollywood.

That Ethel Leginska is the only woman opera conductor in the world; that she was born Ethel Liggins in Hull, England, but changed to the more operatic tag—and that she is now conducting "Boccacio".

* * *

That Gutzon Borglum's studio is hidden in a thick wood near Stamford, Conn.

* * *

That it takes me longer to click off this weekly column than my stint for any other day.

* * *

That there is a firm which rents props to Broadway shows, things like authentic oils for Park avenue drawing rooms and so on—and that if the play runs longer than ten weeks the furnishings become the property of the producer.

* * *

That a newspaperman newcomer to the town once remarked: "I like New York because it's so slow. I used to cover eleven courts, two or three strikes, a couple of theaters and a fire or two in one day. If you were out ten minutes without telephoning they notified the police, and if you were out half an hour they took up a collection for flowers. Some reporters here actually get fat!" (Ten to one that guy never was a "leg man" on a tabloid during a murder mystery peak!)

* * *

That Warren's, a bookstore in 135th street, handles only the product of colored authors.

* * *

That drug stores now serve chop suey, shaslik and creole gumbo soup at noontime.

* * *

That in Vienna the dinner hour begins at 10:30 p. m.

* * *

That, despite the gibes in their direction, the average intelligent tourist sees more of New York than most natives do in a lifetime.

* * *

That several book publishing houses will caflumox shortly after Christmas.

* * *

That college boys in New York flock to the taxi dance halls now, instead of to speakeasies, "Roseland" and "The Orpheum" harboring droves of them every week-end.

The British goose will now serve the American gander a dish of tariff sauce.—The Louisville Courier-Journal.

Bill Offutt then took charge of the group and a period of games took up and hour and in the meantime Dr. McFate was busy looking through the dictionary and when he was queried as to why. he said he had looked at the word "depression" and found it meant "abasement" or beneath the surface" so he invited the group to the basement of his home, where he and Al Dodds were the chief entertainers and the entertainment they put on was most pleasing, for they served "hot dogs" and "hamburgers" with coffee.

Bananas Are Proved Good Food In Diet

Athletic Director Errs In Banning Fruit—Clendening

By LOGAN CLENDENING, M. D.

Not long ago in this column I published a question sent in by a teacher in a high school. It appears that the director of athletics in the high school had put the ban on bananas and had forbidden candidates for the football team and the track team to eat bananas on the ground that they were unhealthy and did not have the proper food elements. My opinion, as expressed at that time, was that there were no grounds for the opinion expressed by the director of athletics.

Confirmation of this has come from an investigation of the opinions of various research workers. On nearly all points bananas have been found to be a healthy food.

First, as regards food value, the banana contains all the principal elements necessary for a balanced diet. The fat and the protein are rather low and, of course, for this reason bananas cannot be considered as a complete food, but taken with milk you have on all points a nearly perfect balance of the food elements. Bananas used as a vegetable in combination with meat also make up a good ration.

The cost of bananas makes them an attractive article of diet. You certainly get as much for your money in food value and vitamins out of bananas as out of nearly any other vegetable.

Besides having high fuel value and good vitamin content, bananas have a considerable amount of roughage and also contain calcium. In spite of all this they are easily digestible and hospital dietitians find them very agreeable to convalescent patients. In fact, a writer in the magazine called "The Modern Hospital" strongly recommends them for this simple reason, i. e., that they are adaptable to the weak digestion of sick people.

Lastly, for most people they are agreeable and appetizing. Dr. William H. Eddy, professor of physiological chemistry at Columbia university, New York, wrote an article on "Bananas in the Diet" in 1927, in which he stressed this feature. He emphasized the fact that the best food in the world might not be useful because it was not agreeable to many people to eat. A universal food must have a universal appeal to the appetite and palate of all kinds of people, and this is certainly true of bananas. People of all ages like them. They can be introduced into the diet of the entire family with the certainty that every member, from the youngest to the oldest, will be willing and even eager to eat his share.

With all these advantages in mind and no disadvantages that have ever been recorded, it is difficult to see why anyone should object to bananas as an article of diet for young people in athletic training.

Book Circulation Shows Steady Gain

Library Fast Outgrowing Present Quarters On North Jefferson Street

Book circulation at the Free Public Library continues to show a steady gain over last year, the figures for the month of November reveal.

Miss Alice Sterling, librarian, stated this morning that the gain in circulation during November was an increase of 31 per cent over that of November a year ago. Book circulation this November was 31,663 while a year ago, the figures were 24,179.

If the usage of the library continues to grow at the same rate, a new library building will be an absolute necessity within a short period of time. Conditions right now are very crowded at the library, double the space being needed.

Made FRESH
never parched, never toasted
CAMELS are KEPT Fresh!

YOU probably know that heat is used in the treatment of all cigarette tobaccos.

But you know too that excessive heat can destroy freshness and fragrance.

That's why there could be no truly fresh cigarette except for scientifically developed methods of applying heat.

Reynolds is proud of having discovered and perfected methods for getting the benefits of heat treatments and still avoiding ever parching or toasting.

With every assurance we tell you, Camels are truly *fresh*. They're *made* fresh — not parched or toasted — and then they're *kept* fresh in the Camel Humidor Pack.

If you wish to know why the swing to Camels is nationwide and steadily growing — switch to them for just one day — then leave them, if you can.

Woman Dies From Effect Of Burns

(International News Service)

ERIE, Pa., Dec. 2.—Death toll from fire which razed three buildings here with loss of $75,000 Monday has increased to two as Mrs. Joseph Lloyd, 52, succumbed to burns, shock and the effect of inhaling flames. Clyde W. Fletcher, druggist in whose shop the blaze originated, was suffocated to death in his living quarters in the rear of the building.

Three firemen, who were overcome by smoke and flames, today were out of danger, physicians reported. Mrs. Lloyd's death came as a surprise. She refused to go to a hospital after being rescued from the blazing building and was apparently not seriously hurt.

Origin of the blaze was laid to an explosion among chemicals in the drug store by Chief Michael Leonard, who made an investigation.

Anterless Deer Kill In Luzerne County Is Halted By Injunction

(International News Service)

WILKES-BARRE, Dec. 2.—Litigation over the state game commission's decision permitting shooting of anterless deer loomed today with an injunction from Judge B. R. Jones restraining enforcement of the commission's action.

The court order was the result of a petition of Dr. E. M. Smith, Wilkes-Barre, president of the Wilkes-Barre camp of the United Sportsmen of Pennsylvania, and names members of the state commission as respondents. They will be notified of a hearing to be held on the injunction next Monday.

Luzerne County

Court explained the ruling has no prohibitive effect beyond Luzerne county. Even if the injunction were made permanent, it would be necessary to take independent action in every other county before the restraint could be made state-wide.

Dr. Smith's petition held that the resolution fixing an open season on deer is void because "it is state-wide in its form and structure and effect, and not applied to particular counties by designation, and its adoption was not based on the necessities of any particular county of the state."

It also was alleged the resolution was not signed, certified and advertised as required by law. The petition further attacked the commission's action by stating "it would be injurious and destructive to our deer herd in Luzerne county and create an unnecessary, unreasonable and destructive decimation of the antlerless deer in this county, unwarranted by any facts or circumstances, and would jeopardize the future supply of deer."

LETTERS TO THE NEWS

NO NEED FOR PANHANDLING.

December 1, 1931.

Editor, New Castle News,
New Castle, Pa.
Sir:—

In a recent issue of your paper you made mention of the fact that there is now no need for transient beggars to be going the rounds of the city because of the new arrangement made by the City Rescue Mission to provide food for such people on the presentation of a ticket. These tickets can be secured from the Mission by any citizen of the community at a small cost. One day last week a man called at our home and when I offered him one of these tickets he refused to take it and said that the Mission was not giving any meals that day. I immediately called up Mr. Watkins and found that the man was not telling the truth.

With the food that is being supplied by the Mayor's Relief Committee through the Salvation Army as well as the meals being offered at the City Rescue Mission there seems little excuse this winter for this house to house begging.

Very truly yours,
G. S. BENNETT,
Pastor First Christian Church.

COURT BACKS SCHOOL IN DISMISSING GIRL

HAMILTON, O., Dec. 2.—The circuit court of appeals reversed the decision of Judge J. D. Barnes of Sidney in the Jane West scholastic qualification case and upheld the right of state supported institutions to expel students who fail to maintain passing grades.

Miss West lived in Portsmouth and matriculated at Miami University where she was dismissed from classes last year for in ability to maintain required scholastic standings in her studies.

The coed contested the privilege of a state-supported institution to expel any student who had paid the entrance free and Judge Barnes ruled in her favor.

Hunting Party Brings Back Deer

Tuesday morning a hunting party composed of George Brown, Charles Withers, Thomas Elliott, George Bechtol, Frank Williams, Mike Bauder and Thomas Vogan left early for Marionville, Forest county, and after getting into the woods about that place, Thomas Vogan proved the successful hunter of the group.

Mr. Vogan got a large 8 point buck, which weighs about 170 pounds. After Mr. Vogan had bagged his quarry he spied about six more deer, but having his quota, he had to be satisfied with just seeing them. The other members of his party were not so fortunate.

Gives Son to Law

Mrs. E. A. Johnson (lower) is one of those few mothers who doesn't believe in shielding her son, George (upper), from the law when he strays from the "straight and narrow." Mrs. Johnson turned her son over to Kansas City police after she discovered that he had held up and robbed a couple of $4. The boy confessed and was sentenced to two years in Missouri reformatory. Mrs. Johnson is steadfast in the belief that she did the right thing.

J. W. Doone Bags 8 Pointer

J. W. Doone, 825 Vogan avenue, had a short but interesting day's hunt Tuesday, when he went up to Tidioute to hunt deer. He got into the woods early and at 7:50 he had his deer bagged. It was an eight point buck.

Drag River For Body Of Youth Believed Slain

Pittsburgh Alleged Liquor Runner, Is Strangely Missing, Auto Found On Bridge

MAY BE VICTIM OF GANG FEUD

(International News Service)

PITTSBURGH, Dec. 2.—Police today were dragging the waters of the Allegheny river for Philip Piazza, 19-year-old victim of what detectives believed was Pittsburgh's latest racket murder, possibly the outgrowth of a liquor feud.

Police said they believed the youth was taken from his automobile on the Sixteenth street bridge during the night and dropped into the river.

Piazza's car, both doors open, the lights burning, was found on the bridge by a night watchman, Joseph Nutter. Police found six loaded shells in the car and a notebook containing the following entries:

Paul—10 cans steam, 1 gin, 1 white, 1 barrel.

One case steam—One good.

Tony—Half case steam.

Mr. Green—Half case steam—Half case steam.

Piazza's 16-year-old bride was hoping against hope that the clues which indicated her husband's death were false. She told police she had been married two weeks ago and that she saw her husband early last night.

Democrats Will Organize House

Will Have 219 Members Against 214 Of Republicans Next Week

(International News Service)

WASHINGTON, Dec. 2.—The prevailing political wind is blowing Democratic—and wet.

Whatever doubt there had been of the Democrats' ability to organize and control the new house of representatives—and there had been very little—disappeared today in the wake of their victory in the fifth district of New Jersey, where Percy H. Stewart, a wet Democrat, defeated Donald McLean, Republican.

The district is normally Republican by some 35,000 votes, but Stewart won by about 2,000.

Thus the Democrats will go into the new congress on Monday with 219 members, as against 214 for the Republicans, with one Farmer-Labor member and one vacancy.

A recapitulation of the special congressional elections held during the last month reveals a strong Democratic and wet trend.

There have been eight of these elections. The Democrats have won four seats from the Republicans, in addition to holding two districts that had been represented by Democrats, making the score stand 6 to 2 in favor of the Democrats. The Republicans were successful in the first Ohio (Cincinnati) district, long represented by the late Speaker Nick Longworth, and in the second Pennsylvania (Philadelphia) district, which is traditionally Republican.

Local Hunters Bag Two Deer

Dr. K. E. Voorhees And Tom Gilliland Return Home With Deer From Clarion County

Among the first hunters of this city to return home with deer are Dr. K. E. Voorhees of 17 Edison avenue and Tom Gilliland of Edison avenue who were the only successful ones out of a party of five who returned this morning from Clarion County.

The local hunters arrived in Clarion County early Tuesday morning and at 11:00 o'clock they had two deer in their possession. William Nunn, Sam Moore, and Mott, V. Hyde were the other members of the party. They report seeing plenty of deer around that district.

One of the deer weighed 175 pounds while the other was a small one.

Stop Night Coughing

Night coughing is almost always caused by an irritated, inflamed throat; so is almost all coughing. Ordinary cough syrups do not reach these conditions, but Thoxine, a prescription exclusively for throat troubles, does. It relieves the irritation and the cough stops within 15 minutes. And Thoxine goes further too. It eliminates the internal cause which many times develops into serious illness.

A swallow of Thoxine before retiring absolutely prevents night coughing and insures a good night's sleep. It gives the same speedy relief for sore throat too. It contains no chloroform or other harmful drugs and children like it. Relief is guaranteed within 15 minutes or money back. 35c, 60c, and $1.00 bottles. Sold by Eckerd's of New Castle, Inc., Love & Megown Drug Co., and all other good drug stores.

Automobile Steel Orders Will Cause Activity In Mills

(International News Service)

NEW YORK, Dec. 2—Under the influence of the approaching inventory season, steel business has lost ground in some districts, but the delayed contracts of the Ford, Chevrolet and Chrysler automobile companies probably will be on mill books this week or the next and will aid in offsetting the usual year-end dullness, according to the weekly Iron Age summary released today.

Ignot production is said to be lower at Pittsburgh, Youngstown and Cleveland, but is up slightly at Chicago. There are gains also at Buffalo and Birmingham because of the operation of mills that run only alternate weeks. The average for the county is 29 per cent for the second week. Steel production is maintained in part because of the desire of producers to give as much work as possible to employees prior to Christmas. November steel output, when officially reported next week will show a small gain, despite the fact that the three major lines of consumption, automobiles, buildings and railroads, were taking much less than their normal share of the total.

The Iron Age composite price on finished steel has declined to 2.102 cents a pound after holding for 19 weeks at 2.116 cents and this average does not take into account the decline of $2 a ton on plates shapes and bars at Chicago. Pig iron remains at $14.96 a gross ton and steel scrap at $8.75.

From 11,000 brains weighed, Topinard finds an average weight of 1,361 grams for man and 1,290 grams for woman.

GETS WRIT TO KEEP FROM BEING 'SCOOPED'

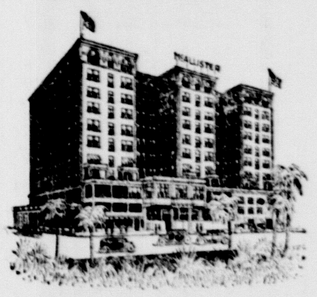

YOUNGSTOWN, O., Dec. 2—Fearing that it will get "scooped" on the report of the grand jury now in session, the Youngstown Telegram yesterday was granted a temporary injunction restraining Prosecutor Ray L. Thomas and his assistants from giving out any advance information on the grand jury's findings.

The petition charges that Thomas several times has given information to the Youngstown Vindicator, opposition newspaper, in advance. It declares the Telegram fears that Thomas may so "scoop" it again—to its "irreparable damage."

There is a chance for someone on the bench to win great distinction. He will be a judge who signs a divorce decree separating the frequently married woman from her millionaire husband without allowing her a vast fortune in alimony.—The Sioux City Journal.

Hawks-Wedell Plan For Race

Noted Airmen May Stage Race From Vancouver To Agua Caliente, Mexico

WEDELL SETS NEW SPEED RECORD

(International News Service)

VANCOUVER, B. C., Dec. 2.—James Wedell, New Orleans aviator who set a new speed record between Agua Caliente, and Vancouver, and Capt. Frank Hawks may stage a race between here and the Mexican resort.

Hawks, forced down at Granada, Cal., while attempting to establish a speed record between Vancouver and Agua Caliente, has sent a wire to Wedell asking him to delay his start until he arrived back at Vancouver, it was learned today. Hawks proposed to Wedell that they take off simultaneously on an aerial dash to Agua Caliente.

Wedell said he had the proposal under consideration. His plane has already been placed in readiness for the return flight. The New Orleans flyer said he believed the flight to Agua Caliente could be made in five hours.

Hawks Poisoned.

YREKA, Cal., Dec. 2.—Suffering from carbon monoxide poisoning, Captain Frank Hawks, noted air racer, was a patient at the Siskiyou General hospital here today.

Hospital attendants stated that Hawks planned to leave the hospital today, though they were unable to say if he would be sufficiently recovered to fly back to Vancouver.

PITTSBURGH, Dec. 2.—Paul Mellon went to work yesterday.

Emulating the reserve of his famed father, Secretary of the Treasury Andrew W. Mellon, the young Yale graduate had not much to say about the banking business. Accompanied by Secretary Mellon, Paul arrived at the Mellon National Bank shortly after it opened Tuesday. In one of his father's automobiles.

"What are you going to do?" asked a reporter.

"I'm going to work. I'm going to learn the banking business."

"In what capacity?"

"Whatever they want me to do."

"What about these reports of your literary ambitions?" the reporter asked.

"That's all old stuff and it's all been explained," the Mellon heir replied.

The Secretary of Treasury had little to say, other than that he was here over the week-end to attend to private business.

THE PARENT PROBLEM

We Parents Too Talky, Says Myers

Disobedience Caused By Too Much Wagging Of Tongues

By GARRY C. MYERS, PH. D.
Head Division Parental Education, Cleveland College, Western Reserve University.

"Tie that outside" was once a much used slang expression. In perfectly good English we can say, "Let us train ourselves to tie our tongues inside.' We parents talk too much, particularly when we are out of sorts.

No single factor contributes so much to disobedience in children as the wagging of the parent's tongue. For some reason not readily discerned there lurks in our nervous system the asumption that we make children do what we want them to do, and desist from doing what we don't want them to do by commanding them and repeating the command until we get results. It is not reason that causes us to rely on word; it is a primitive urge for expressing authority and for giving vent to our feelings toward those we consider our inferiors, intensified and probably glorified, by a curious mixture of a feeling of responsibility for the child's conduct.

The other day I was a guest at a family table, where ate a child of nearly four. After he had eaten the food prepared for him he begged his mother for a piece of buttered bread. She gave him a small one. He took a bite, laid it on his plate and started to get down, when his his mother quietly said, "Not until you have finished the bread." He whimpered and whined, "I don't want it," repeating this remark six times, with the loudest at the fourth. The seventh time was faint and slow. Then he began to eat it, but no one else had in the meantime said a word, or acted as if his eating was at all observed.

The mother added not another word, but went on eating as if nothing irregular had occurred. She did not even praise him. Of course not; to have done so would have suggested that he was unusually good or that she was concerned.

He soon began asking her questions about some of his day's experience. Her replies were quiet and sympathetic. They soon were carrying on an extended conversation, but with no reference to his food or eating. When the last morsel of bread had been eaten by the child, he asked permission to get down and went to play happy. Hers was a huge success.

• • •

Perhaps not one parent out of a thousand would have been able to hold the tongue and control herself so well as that mother did. Of course she had had earlier successes to give her fortitude on this trying occasion. The child also knew from earlier experiences that her word was final, though it was uttered as gently and as matter-of-factly as if she had said, "Please pass the butter."

It is about the easiest thing in the world to say, "Never repeat a command," but it is difficult to abide by such instruction. I have discussed this subject more fully in my pamphlet "Punishments and Rewards."

EDITOR'S NOTE: Two pamphlets by Dr. Myers may be obtained by sending 10 cents in coin, for each, and a salf-addressed, stamped envelope, to Dr. Garry C. Myers, in care of this paper, or Central Press Association, 1435 East Twelfth street, Cleveland, O. The pamphlets are: "Punishments and Rewards" and "Fear".

SCHOOL RELIEF PLAY IS READY

Will Be Presented On December 3 And 4 At Washington Auditorium

The body must be properly nourished to do its best work. Undernourishment causes not only physical weakness but mental weakness as well.

Many instances of this were found in our schools last year. Many cases in which poorly nourished bodies were struggling to keep up mentally with the class. Eyes with a strange hollow, gaunt look trying to follow the lines of a reading lesson. These are just a few of the pictures we see in our schoolroom.

Last year a benefit football game was given and the proceeds were used to relieve these conditions by providing milk and graham crackers for the children who have had no breakfast because of lack of food at home. In some schools warm breakfasts of cereal and mush were provided. It took just the look of brightness and happiness that came to the eyes of these little folks to make the teachers feel that their efforts were well appreciated.

The dramatic teachers this year offered their services in putting on a play to aid this relief work. Having the approval of the Mayor's Relief Committee and the Community Chest the committees were appointed and thus the work was started.

With the exception of a few minor expenses the whole of the proceeds will be turned over to the School Children's Emergency Relief Fund.

You can help to buy a bottle of milk for a hungry boy or girl by attending the play "Mrs. Bumpstead-Leigh" at the George Washington Junior High, Dec. 3-4.

To End a Cough In a Hurry, Mix This at Home
To quickly end stubborn coughs due to colds, it is important to soothe the inflamed membranes, get rid of the germs and also to aid the system inwardly to help throw off the trouble.
For these purposes, here is a home-made medicine, far better than anything you could buy at 3 times the cost. From any druggist, get 2½ ounces of Pinex. Pour this into a pint bottle, and add plain granulated sugar syrup or strained honey to fill up the pint. This takes but a moment, saves money, and makes a remedy so effective that you will never do without, once you have used it. Keeps perfectly, and children like it.
This simple remedy does three necessary things. First, it loosens the germ-laden phlegm. Second, it soothes away the inflammation. Third, it is absorbed into the blood, where it acts directly on the bronchial tubes. This explains why it brings such quick relief, even in the obstinate coughs which follow cold epidemics.
Pinex is a highly concentrated compound of Norway Pine, containing the active agent of creosote, in a refined, palatable form, and known as one of the greatest medicinal agents for severe coughs and bronchial irritations.
Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

Plan To Release Christmas Funds In Closed Banks

Pittsburgh Chamber Of Commerce Studying Plan Adopted In Harrisburg

(International News Service)

PITTSBURGH, Dec. 2.— The Pittsburgh Chamber of Commerce today was studying a plan adopted by the Harrisburg Chamber of Commerce to release part of the funds held in Christmas savings club accounts by closed banks.

Under the Harrisburg plan which has been approved by the State Banking Department, depositors assign their Christmas savings account to a central agency established by the Chamber of Commerce. They then received certificates for 50 per cent of the face amount acceptable in department stores for purchases. The only charge is one of three per cent for interest to cover operating expenses.

When the banks are liquidated, the bank payments over and above the store orders and interest charges will be returned to the depositors.

Walker Makes Eloquent Plea For Tom Mooney

Mayor Walker, Of New York City, Central Figure At Mooney Hearing

GOVERNOR DELAYS HIS DECISION

Twenty-Five Arrested For Demonstration Outside Of State Building

By JAMES L. KILGALLEN
International News Service Staff Correspondent

SAN FRANCISCO, Dec. 2.—Governor James Rolph, Jr., today had under advisement the plea for a pardon for Tom Mooney made by Mayor James J. Walker of New York City and his legal colleagues, Attorneys Frank P. Walsh and Aaron Sapiro, in one of the most dramatic and colorful public hearings in California history.

Although the governor did not in any way indicate his reaction to the impassioned pleas in behalf of Mooney, there was considerable speculation on the possibility that the convicted labor leader might be granted a "Christmas pardon."

Strong Sentiment.

Against the prospect of a pardon by Christmas was the apparent fact that there is a strong public sentiment in California bitterly opposed to the liberation of Mooney. What effect, if any, this sentiment will have upon the governor's decision is problematical.

Governor Rolph did not indicate how soon he would announce his decision. It may be weeks, perhaps months.

All three Mooney advocates based their pleas for "a full and unconditional pardon for Mooney" on the basis that he is an innocent man who never would have been convicted had it not been for the "perjured testimony of Frank C. Oxman, Oregon cattleman, now dead, and John McDonald, an itinerant waiter, now a resident of Baltimore, Md.

Twenty-five Arrested.

As if to accentuate the theatrical aspect of the proceedings, near-riot conditions prevailed outside the state building where the hearing was staged. A police detail of several hundred officers put down alleged Communistic disorders and arrested twenty-five persons, including four women.

Three policemen were injured battling the demonstrators. The police used their clubs freely and mounted police rode into the crowds.

Walsh spoke first, for two hours; then Walker for almost two hours and finally Sapiro for thirty minutes. Throughout the orations of these famous lawyers, Governor Rolph and his four advisers sat upon a raised dais listening with rapt attention.

In the audience sat Tom Mooney's 80-year-old mother, Mrs. Mary ("Mother") Mooney; Tom's sister, Anna; his brother, John, and his wife, Rena Mooney.

Mother Thanks Walker.

After the adjournment of the hearing, "Mother" Mooney pushed her way through the crowd in the court room and grasped the hands of Mayor Walker.

"God bless you, my boy!" she cried, tears welling in her eyes.

The mayor, visibly affected, patted her hand and said:

"Well, mother, all we can do now is hope."

Mayor Walker was the cynosure of all eyes as he stood before the rostrum beneath the dais pleading for the release of Mooney.

"The constitution of the United States assures to every man the right to life, liberty and the pursuit of happiness and we are here for the life, liberty and pursuit of happiness of Thomas J. Mooney," Mayor Walker said.

"There is no controversy that it was on the testimony of Oxman and McDonald that Mooney was convicted. Let your excellency and I, in an effort for the preservation of justice, write the answer."

Decision Later.

The mayor reached a dramatic highlight in his plea when he referred to "Mother" Mooney. Dropping his voice he said:

"Some day the sun will go down in sunny California and that dear old soul will not be here. When that night comes, may her son be there."

Throughout the proceedings Governor Rolph took notes. Not once, however, did he or his advisers who sat with him on the bench give any indication of how the pleas of Mooney's three advocates had affected them. At the conclusion of Sapiro's oration, Governor Rolph said he would take the matter of a pardon for Mooney under advisement and that a decision would be announced "as soon as possible."

Bayles Fails In Speed Test

Noted Speed Flyer, Does Not Get Official Recognition

(International News Service)

DETROIT, Mich. Dec. 2—Lowell R. Bayles, Springfield, Mass., speed flyer, today was denied his claim to the men's airplane speed record.

Clocked unofficially at the Wayne county airport yesterday at 284.72 miles an hour, official computation of the times today showed Bayles had fallen short of that mark.

According to the check made from the electric timing device, Bayles, in his Gee Bee plane made 281.9 miles per hour. While this betters the old mark of 278 miles an hour, it still does not stand because, under rules governing speed flights, the old mark must be bettered by at least 4.97 miles an hour.

Bayles expressed keen disappointment over today's ruling and declared he would try again.

"Quite frequently," Bayles commented, "stop watch timers fail to get an accurate check. One tick of the stop watch would make a difference of 2.7 miles an hour, I'll just have to try again."

Fast Talker In Detroit Court Saves 15 Bucks

Russel L. Secrest, 27, Of Du Bois, Second Best Talker In Nation Fined $5.00

ORIGINAL FINE WAS 20 DOLLARS

(International News Service)

DETROIT, Dec. 2.—This is the story of a traffic court filibuster, engineered by Russell L. Secrest, 27, of DuBois, Pa., that today still formed the topic of conversation in Judge Arthur D. Barkey's chambers.

Secrest, who says he made DuBois famous by winning second place in a national talking marathon, talked a $20 fine down to $5 and left traffic court still talking about what a great talker he was.

Secret started talking as soon as the charge of speeding 40 miles an hour on November 12 was read to him by Judge Barkey. He made an eloquent plea.

Talks Very Fast.

Court attendants, policemen, other defendants and Judge Barkey gazed on in open-mouthed wonder at the exhibition of loquaciousness. Russell was well on his way to a filibuster when Judge Barkey interposed wth a simple statement:

"Fined $20."

"Now, judge," resumed Russell, and he talked speedily for another long five minutes at rapid-fire rate.

Again the judge punctuated the onrush of words with the question:

"Say, are you an attorney?"

"No," explained Russell, "I'm a professional talker. I became the nation's second best by 73 consecutive hours of chinning."

"It was a swollen ankle, not an exhausted mouth, that made Russell stop after 73 hours," he explained. Then he looked down at his ankles. Even the judge followed his gaze. Secret silently seemed to be threatening that "my ankles are in the best of condition now."

"You talked 73 hours...73 hours," Judge Barkey murmured weakly. "Make that fine $5. Next case, quickly."

The doctor was puzzled.

"You ought to be getting well by now," he said. "Have you carried out my instructions all right?"

"Well, doctor," said the patient, "I've done most of them, but I can't take that two-mile walk every morning as you ordered. I get too dizzy."

"What do you mean 'dizzy'?" asked the doctor.

"Well, sir," said the patient, "I must have forgotten to tell you. I'm a lighthouse keeper."

OH, YEAH?

The newly-elected president of a banking institution was being introduced to the employes. He singled out one of the men in the cashier's cage, questioning him in detail about his work, etc.

"I have been here 40 years," said the cashier's assistant, with conscious pride, "and in all that time I made only one slight mistake."

"Good," replied the president. "Let me congratulate you. But hereafter be more careful.'

MARINE TRAGEDY

"You don't go in for motor boating now?"

"No, I was tired of my motor boat and changed it for a car."

"But what about your fiancee? She was so keen on motor boating."

"I changed her with the boat. Her name was on the wretched thing."

More Deer Hunters Report Success

Although not all of the hunters who joined the army of deer seekers have been heard from and a big majority of them are still in the wilds driving deer or on watch, some returns have been received and it appears as though many Lawrence county hunters will have the honor of having been in on the kill.

Among those who shot a buck is Charles Kelly. He brought down an eight point antler near Medic Run. Bob Lamoree got a doe in Forest county and Dave Clayton, Lee avenue, got a buck in Bradford county.

Clayton was with Charley Mack and Joe Mutter of Edenburg vicinity. Mack and Mutter each killed a doe according to the reports received here today from Bradford county.

Many of the veteran hunters who went into the deer counties did not shoot a doe in the hope of getting a buck.

Lawther Speaks At Erie Banquet

Westminster Coach Is Speaker At Erie East High School

(Special To The News)

NEW WILMINGTON, Pa., Dec. 2.—John D. Lawther, director of athletics and head football coach at Westminster College, was the speaker at the banquet held for the championship Erie East high school football team at Erie last evening.

Lawther was invited to the banquet to be the main speaker by Hamilton Gillespie, a graduate of Westminster who is on the faculty at East High. The Westminster mentor complimented the football team on its excellent season's record this year, told a number of stories of actual interesting events in his coaching career, and told some humorous stories about athletes and coaches.

Carbon Monoxide Deaths Increase

The hazard of carbon monoxide poisoning in closed garages is growing despite the vast amount of educational work which has been done in the hope of eliminating this type of accident, according to the National Safety Council. The casualty list trebled from 1924 to 1929.

Tragic cases reported in the newspapers are apparently the best warning, according to the Council. A majority of death from this cause occur in the early days of winter—during the first prolonged cold spells. As the winter wears on, motorists seem to be more careful to keep the garage doors and windows open when running their motors. It is unfortunate that several hundred lives must be sacrificed each year before the lesson is sufficiently impressed on other car owners.

These things are to be remembered about carbon monoxide. You cannot see it, you cannot smell it, nor can you taste it. The unseen foe can only be battled with plenty of fresh air.

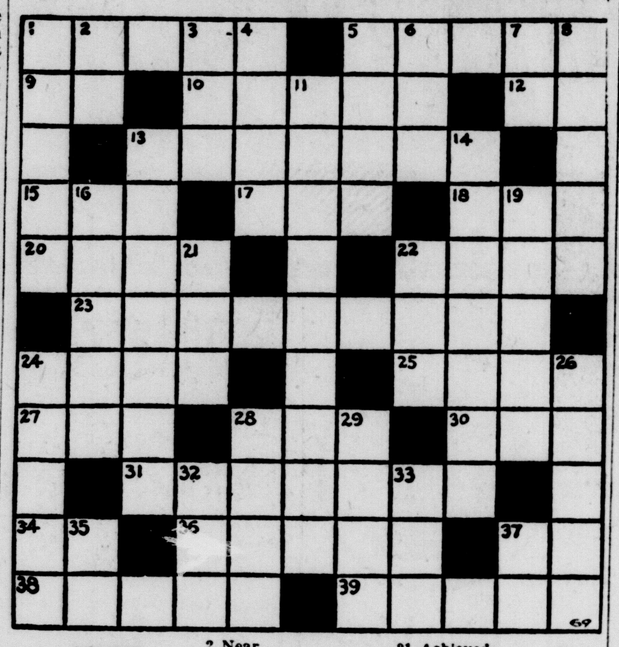

Measure The Ice Before You Skate

Parents who have difficulty in keeping their youngsters off the ice until it is perfectly safe for skating are given this rule by the National Safety Council.

Ice one inch thick is not safe. Two inches of ice will hold one person. Three inches will hold small groups. Four inches will hold large groups.

This rule should be made ironclad in regions where ice skating on streams and lakes is the chief winter sport. Most of the drownings reported occur during the first few weeks of winter when the ice looks safe but is not sufficiently thick in all places to sustain the skater's weight.

Deer Tale Is Told By News Employee

It is said that cats have nine lives, but whether or not this applies to deer we are at a loss to tell you. There is another young man, an employe of The News, who is also wondering, scratching his head over this question, "What happened to my deer?"

It seems that the young man in question shot a deer in Venango county about 7:45 o'clock Tuesday morning.

The local hunter placed the tag bearing his name and address around the neck of the slain animal and left to get help. Returning about a half hour later he could not locate the spot where he left the deer. He hunted and hunted for hours but could not locate his prize. He asked several hunters about the deer but they could not help him out. He returned home last night empty handed.

This is his story, take it or leave it.

Former Local Man Injured, Three Others Dead As Result Of Auto Crash

Philip R. Barth, of Wellsville, Ohio who until recently lived at the Cunningham home on West Clayton street, was badly injured in an automobile crash last Thursday, which occurred at an intersection seven miles from Kinsman, Ohio, according to news received by several local families.

The accident in which Mr. Barth was injured resulted in the deaths of three other people, Mr. Gates, the 18 year old brother-in-law of Mr. Barth, a child riding in the truck into which the Barth car collided, and a woman living nearby who died of heart failure upon seeing the crash.

Mr. Barth, who was a machinist in the Pennsylvania railroad shops of Mahoningtown, had, with his wife, lived here until about two weeks ago, when he accepted a position in Ashtabula, Ohio. After moving part of the household goods to Ashtabula, Mr. Barth found that the arrangements for the position had fallen through. On Thursday Mr. Barth, his brother and his brother-in-law left by automobile from Wellsville, Ohio, to Ashtabula, intending to bring their belongings home to Wellsville. The accident occurred while they were enroute.

ATTACKS VAGRANCY LAW

(International News Service)

NEW YORK, Dec. 2.—The strict vagrancy statute, recently passed by a special session of the legislature as a greater defensive weapon in the extermination of racketeers and gangsters, contains many "errors and iniquities" in the opinion of Magistrate E. R. Rudich. He says the new statute makes the prosecutors' duties more difficult. Before obtaining a conviction, it is now necessary to prove that the defendants bore evil reputations and that they had consorted for an unlawful purpose with convicted criminals.

New United States Senator Was Once Good Heavyweight

Warren Barbour, Newly Appointed New Jersey Senator, Had Fistic Ability

James Corbett Paid Barbour Compliment When Boy —Refuses To Meet Johnson

By FRANK G. MENKE
International News Service Sports Editor

NEW YORK, Dec. 2.—Of course, Jack Copper is glad that W. Warren Barbour is now a United States Senator from New Jersey, but nothing ever will balance the grief Jack has known during the 20 years since Barbour quit the amateur ranks of ringdom.

"He could have been a champion, champion of the whole world, I tell you, but he said 'no,' and then he said 'no' again and right after that he retired, the greatest athlete I ever knew, the greatest natural ringman I've seen in generations" is what Jack had to say about Barbour.

Turned Down Offers

Jack was Barbour's ring tutor in the far-flung years when Barbour was slam-banging his way to the heights of the amateur ranks, and it broke the old timer's heart when Barbour refused to turn "pro" and indulge in a session with Jack Johnson.

"I've watched them all" added Cooper, who conducts a gymnasium in New York, "but never a boy like Warren Barbour. He wasn't quite 20 when he won the amateur championship. He was as fast as a featherweight, could hit as hard as any man that ever lived and he had brains, brains, and then some more brains.

"And only 19 he was, with four or five years ahead for developing, although, thinking about him now, I just can't remember anything that he need to learn. He sparred with Jefferies and he sparred with Corbett and it was Corbett who told me 'I'm glat that I didn't have to meet this boy when I was fighting my way along, or when I was champion.'

Refused Johnson

"After Johnson whipped Jeffries in Reno they wanted Mister Warren to fight Johnson. He, could have named his own price.

"I know how good Johnson was, along in 1910 and 1911. But if Mister Warren ever had gone against him my money would have been on the boy. He knew how to get away from a left jab, he was faster than Johnson, more powerful and, when he let go with a punch he was a marvel in accuracy. No wild swinging for him. And they didn't get up when he smacked them down.

Went To Work.

"There was pretty much ruckusing about a fight between Johnson and Mister Warren back there in 1910 and 1911 and lots of times folks felt pretty sure they'd be matched.

But right about that time his people said he must stop fooling around with the gloves and go to work in his father's factory so that he would learn the business and follow in his father's footsteps.

"So he's a United States senator now, eh? Well, that's something, of course. But he could have been a world's champion and when you figure it out that's pretty important thing, because there can be only one heavy champ at one time, while we have a whole lot of senators all the time."

TITAN FLOOR TEAM DRILLS

Plan Games Early This Month With Several Ohio Colleges

(Special To The News)

NEW WILMINGTON, Pa., Dec. 2.—Many members of the Westminster College basketball squad reported Monday evening to Coach John Lawther for practice in preparation for the pre-season contests to be played this month with colleges in Ohio.

In the absence of Coach Lawther Tuesday night, members of the court squad reported to Jack Hulme, varsity trainer, who had the men go through a brisk workout. Tonight the men will start to exhibit their wares so that Coach Lawther will be able to select a squad of from 12 to 15 men from the large group seeking positions.

In all probability, Westminster will play Slippery Rock and Edinboro State basketball fives within the next 10 days. Later in the month, Ohio University and the College of Wooster will be met in Ohio, and the Akron Goodyear Tire team will be played. It is possible that Monmouth College of Illinois and Albion College of Michigan will be met on the home floor.

Football Teams Ready To Battle In Charity Tilts

Unemployed Will Benefit From Many Grid Battles Listed For Saturday

By COPELAND C. BURG
International News Service Sport Correspondent

NEW YORK, Dec. 2.—Charity begins at the blast of the football whistle this week-end with a Baker's dozen of benefit gridiron conflicts topping's Saturday card.

In the East the Round-Robin tournament in the beautiful Yale bowl at New Haven, arranged for the benefit of the unemployed, will bring together Yale's great squad, Dartmouth, Holy Cross and Brown.

Booth Not To Play

Little Albie Booth, the blue's captain, is sick and will not be on display, but other members of the Eli squad, which came from a bad start to gain eastern honors with a thrilling triumph over Harvard, will pass in review.

Tennessee, a great team among the south's valient elevens, braves the chilly blasts of Yankee stadium here to attack New York university in a benefit tilt and Carnegie Tech fights Duquesne at Pittsburgh.

Midwest jobless will reap aid from Kansas-Washburn at Topeka, Missouri-St. Louis at St. Louis, Oklahoma-Oklahoma City at Norman and Kansas State-Wichita at Wichita. The crack big six conference eleven, Nebraska, will battle the Colorado Aggies at Denver.

South Doing Bit

Dixie charity will blossom in the Alabama-Chattanooga affair at Chattanooga and Centre will play South Carolina at Columbia. A picked Duke eleven will test a team of combined North Carolina State, Wake Forest and Davidson stars at Durham, S. C.

The undefeated Southern Methodist eleven will find action in San Francisco against St. Mary's in a benefit game. Bannering far western skirmishes. Utah plays Oregon State at Portland.

Among the non-charity affairs the Tulane-Washington State scrap at New Orleans and the Washington-Southern California at Los Angeles, which may be a real thriller, are the standouts. Pennsylvania plays Navy at Philadelphia. Other games are Western Maryland vs Maryland at Baltimore, Haskell versus Tulsa at Tulsa and Kentucky vs Florida at Jacksonville.

Drake and Loyola of Los Angeles will usher in the week-end tilts on Friday. They meet in Los Angeles.

SPYING ON SPORTS

BY WILLIAM RITT

Central Press Sports Editor.

The season that ends the football season—the All-American, All-Sectional, All-Conference, All-State, All-City and All-Everything Else season—is on.

And with its usual problems.

This time there are too many first-class halfbacks, tackles and ends. And not enough fullbacks and guards.

Always there seems to be a surplus of star talent at certain spots and a famine of it at others. That's the way it usually is and that's the way it is this year.

Not yet has the dream of the all-team picker—an outstanding player for each position—been realized.

• • •

Ends—there are, aplenty.

Vernon (Catfish) Smith of Georgia, Paul Riblett of Penn, Jerry Dalrymple of Tulane, Garrett Arbelbide of Southern California, John Orsi of Colgate, Ray Moss of Purdue, Jim Cavalieri of Holy Cross, George Ellert of Syracuse. There are a few.

Tackles? Pick any two: Dallas Marvil and Jack Riley of Northwestern, Ed Krause of Notre Dame, Jim MacMurdo of Pittsburgh, Hugh Rhea of Nebraska, Paul Schwegler of Washington, Greg Kabat of Wisconsin, Turk Edwards of Washington State, Chris Martinez-Zorilla of Cornell, Allan Cook of Lafayette.

Halfbacks? Ha!

Just a few: Ernest (Pug) Rentner of Northwestern—the one man who seems sure of selection—Marchmont Schwartz of Notre Dame, Gene McEver of Tennessee, Don Zimmerman of Tulane, Phil Moffatt of Stanford, Paul Reider of Pittsburgh, Jim Murphy of Fordham, Bob Monnett of Michigan State, Bill McCall of Dartmouth, Larry Schlums of Weslevan, Jack Grossman of Rutgers, Edgar Westfall of Ohio Wesleyan, Bob Wilcox of Lafayette, Ernie Pinckert of Southern California, Guy Warren of Oklahoma, Don Wheaton of DePauw —Enough? All right.

The quarterback situation is peculiar. Usually at this post the first-class candidate are as thick as a stack of bills on a bankrupt's desk.

Only four names present themselves at first thought: Orville Mohler of Southern California, Barry Wood of Harvard, Bill McCall of Dartmouth and Austin Downes of Georgia.

Clarence Munn of Minnesota looks like a sure man for guard. But who will be the other guard?

And fullback—Well, there's Gus Shaver of Southern California, and, maybe, Albie Booth of Yale.

• • •

At center the list is a bit longer. Ralph Daugherty of Pittsburgh and Tom Yarr of Notre Dame seemed to have the battle between them until reports of the stellar play of Pete Gracey of Vanderbilt trickled northward.

Now there are quite a few candidates for the post, including Chester Miller of Purdue, Del Kenyon of Amherst, Al Delcambre of Southern Methodist, this fellow Ely of Nebraska and many others.

GOLF SEASON IS OFFICIALLY CLOSED

Golf season came to an official close at the New Castle Field club on Monday, although there are those few enthusiastic golfers who persist occasionally, in spite of the lateness of the season, in making the round of the course. Captain V. Arthur Smith, club professional, on Monday completed his official duties for the year and those having clubs or other paraphernalia at the club house are now doing so at their own risk.

Indian Gridder Reveals He Was Bribed To Quit

Former Iowa University Indian Fullback Reveals Being Approached By Gambler

(International News Service)

ST. LOUIS, Dec. 2.—Charges that he was offered $500 by an Iowa City, Iowa, bootlegger to leave the game before the end of the first quarter of the University of Iowa and Ohio State Big Ten conefeference football game in 1928 were made by Mayes "Chief" McLain, former Indian fullback star of the Hawkeye institution, in an exclusive interview with International News Service today. McLain is now a member of the St. Louis Gunners, local professional team.

"I was approached by —— —— about a week before the game," the Cherokee Indian said. "He offered me $500 if I would leave the scrap before the end of the first qaurter. I told him 'thumbs down' on the proposition. I knew he didn't like my answer because I had heard plenty of rumors at about that time that there was considerable money bet on the game. Instead of accepting his offer, I played probably the hardest game in my entire career. I was really humiliated to think that a person would come to me with an offer and try to tempt me to 'throw a game'."

McLain told International News Service the name of the reported bootlegger who made the alleged offer, but added, "If that name was mentioned they would undoubtedly 'put me on the spot' the very moment that I would step within the Iowa City boundaries."

Benefit Game To Start At 2 O'Clock

Committee In Charge Of Union-New Castle High Game Formulates Plans

TWENTY-NINE MEN ON COMMITTEE LIST

Proceeds Of Game Will Benefit School Children Of City And Township

Twenty-nine men who are on the committee to arrange final plans for the Union-New Castle high school football game which will be played Saturday afternoon at Taggart stadium for the benefit of the school children met at the Y. M. C. A. Tuesday evening. Alec Samuels, chairman of the committee, was in charge.

Change Time.

The time to start the game has been changed. It was announced recently that the battle would start at 2:30 o'clock. The time has been changed to 2 o'clock. Tickets for the game are on sale now at the Sporting Goods store and in the different schools of the city.

Reserved seats sell for 50 cents. Student tickets are on sale for 25 cents. The committee decided to sell student tickets until Friday afternoon in the schools. After Friday afternoon student tickets can not be purchased anywhere, not even at the stadium.

Tickets have already been placed in the hands of the different committeemen who will sell them. The pasteboards will be distributed in the different stores in the city today or Thursday. It is predicted that a big crowd will be present to watch the local teams battle.

Teams Prepare.

Daily on an open field located in the western section of the city a group of huskies in charge of Coach Boyd are training diligently in preparation for the game. Coach Boyd and his Union high gridders are coming along fine for the game. "The boys are working with their heart and soul daily," Boyd stated.

By Friday afternoon he expects to have his boys in the best of condition for the game. Coach Phil Bridenbaugh stated that his gridiron machine will also be primed for the game.

Announce Committee.

The committee which is in charge of the game follows: Alec Samuels, chairman; William Connery, Ed Raney, Maurice Markley, Ed Connery, Dr. McConahy, Carm Sacco, Peter Capitola, Jokie Travers, Vitus Conti, William Eroe, James Carson, L. A. Rudesill, Floyd W. Gerger, D. M. Boyd, R. E. Conway, Earl Ammons, Mr. Sontum, Dean Staley, Kiski Marino, Ralhp H. Gardner, P. H. Bridenbaugh, Edford Fritz, Charles Walther, Ray Nolte, James A. Love, L. Laurell, Robert Meermans and Charles Landolf.

HERE AND THERE IN SPORTS' LAND

Two former champions, Johnny Layton, Sedalia, Mo., and Benny Allen, Kansas City, won their matches Monday in world's pocket billiard titular play at Philadelphia. Layton beat Marcel Camp, Detroit 136 to 117 in 15 innings while Allen defeated Andrew Ponzi, Philadelphia, 125 to 104 in 12 innings.

Bob Lamoree brought down a doe in the vicinity of the Hoyt camp in Forest county. He shot the doe a few hours after dawn broke.

It is not likely that the fans will soon forget Jackie Rodgers and Mose Butch. Their performance was drab. Referee Chip tried to make them show something but they paid no attention to his pleading. It isn't likely they will return here for fistic action.

Gold Rush Days—9. In The Goldfields

ON REACHING THE CALIFORNIA GOLD FIELDS, THE FIRST THING THE PROSPECTORS DID WAS TO LOCATE A SPOT WHICH GAVE PROMISE OF YIELDING "PAY DIRT" AND STAKE A "CLAIM".

THEN, WITH PAN OR "CRADLE" THEY PATIENTLY WASHED THE GRAVELLY DIRT OF MOUNTAIN STREAM BEDS FOR PARTICLES OF PRECIOUS METAL. SOMETIMES GOLD WAS FOUND IN LUMPS, OR NUGGETS, OF CONSIDERABLE SIZE.

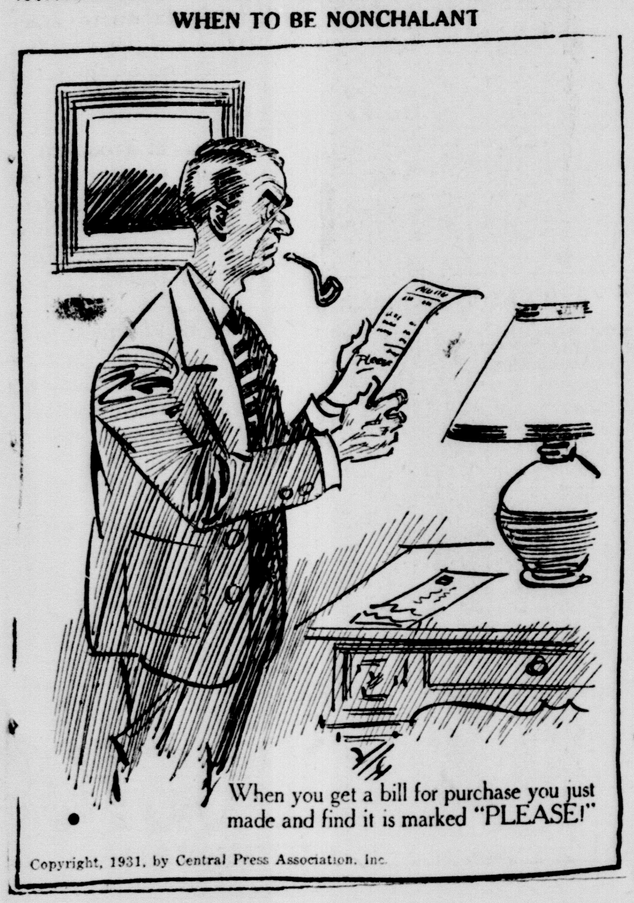

WHEN THE CLAIM HAD "PETERED OUT" AND NO GOLD REMAINED TO BE EXTRACTED, THE PROSPECTOR PULLED UP STAKES AND WENT IN SEARCH OF NEW "DIGGINGS".

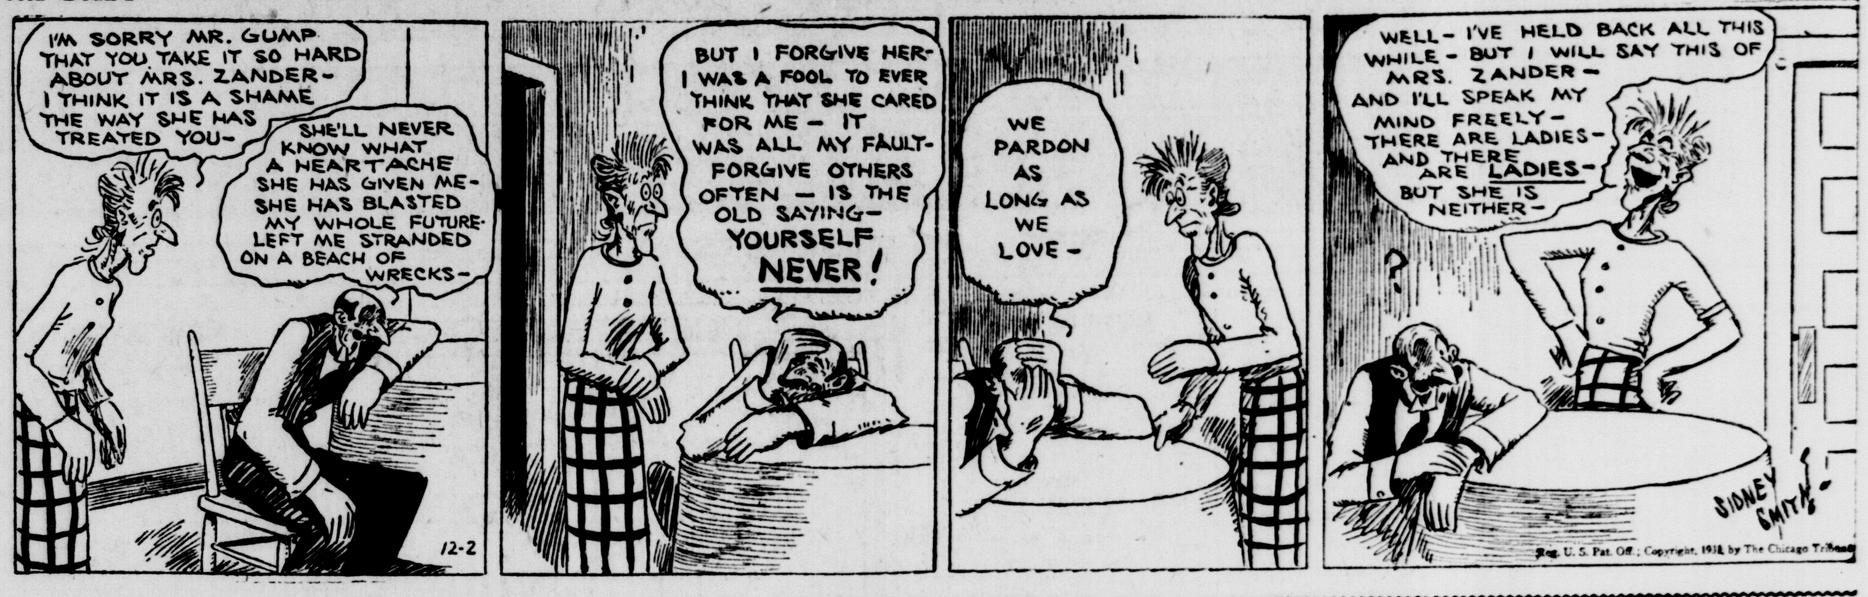

WHERE GOLD WAS FOUND IN SEAMS OR VEINS LEADING FAR UNDERGROUND DEEP SHAFTS WERE DUG TO REACH THE ORE. IN TIME MANY OF THESE MINES BECAME LARGE-SCALE ENTERPRISES.

NEW YORK STOCKS

Railroad Stocks Rally; Regain Early Losses

By W. S. COUSINS
International News Service Financial Editor

NEW YORK, Dec. 2.—Railroad stocks which were carried downward by the announcement of the Wabash receivership this morning rallied sharply before the end of the first hour and recovered all of their early losses.

Buying demand for New York Central and other favorites swept in on the big board when the Canadian board of conciliation made its recommendation for a 10 per cent wage reduction on the dominion railroads. Wall Street took the view that this action would have an important influence on railway wage "adjustments" in this country.

Wabash stocks and unsecured bonds have been selling close to receivership prices in recent months and the monthly financial statements have revealed the continued drop in operating income. The Pennsylvania company, agency of Pennsylvania railroad, owns 362,800 shares of the common stock and 321,900 shares of class A preferred. The common dropped to a dollar a share and the preferred to 1¾, compared with yesterday's close at 3¼ and 5 respectively.

APPROPRIATE CLOTHES FOR OPERA

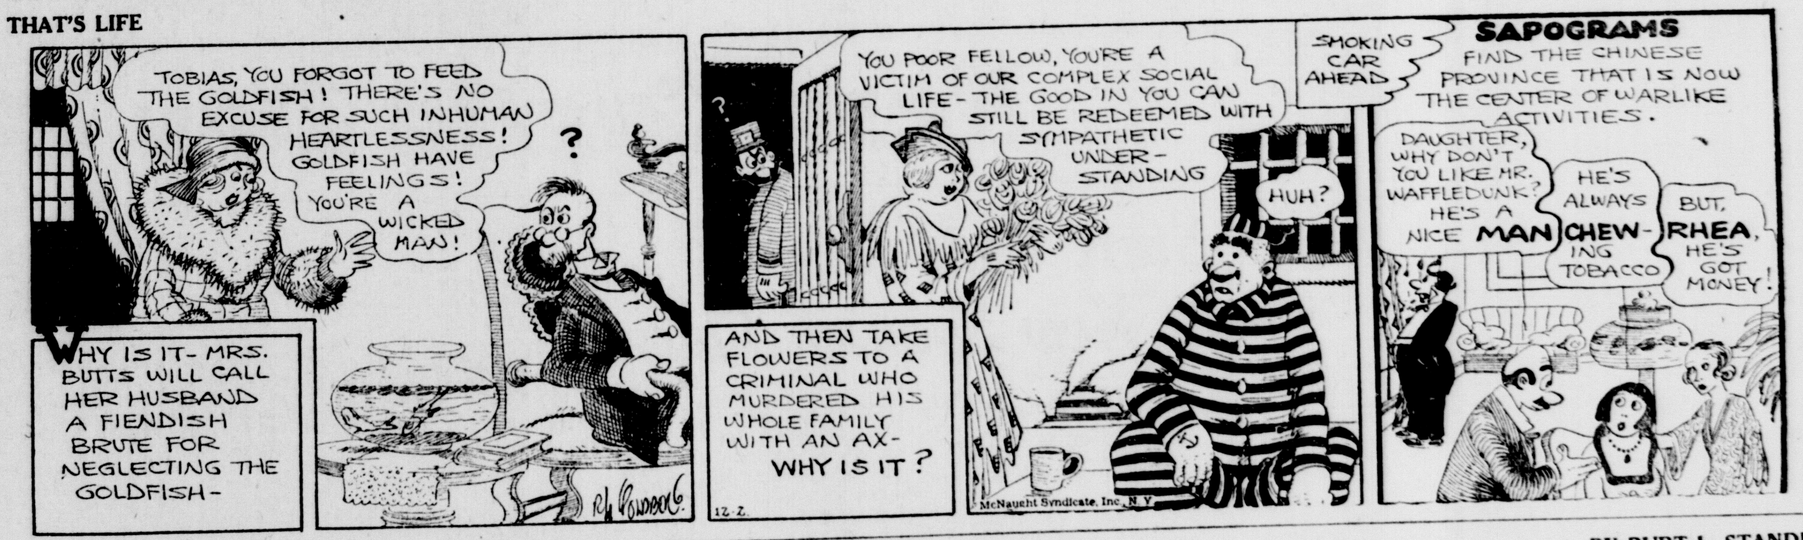

The opera is one of the few social institutions that has retained the prestige pertaining to it in its heyday when one's box at the opera on the first night was itself a little stage for the presentation of the latest creations of fashion. This season the elegante will choose slim trailing gowns, decollette to the waist in the back, with a wrap almost equally long and slender. A Lelong ensemble for milady's opera wear is sketched here.

Host Of Suggestions For Modifying Of Dry Laws Will Be Offered

Liberalizing Proposals Will Range From Repeal To State Control

League For Modification Will Sponsor Measures In Both House And Senate

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

WASHINGTON, Dec. 2.—A host of suggestions for modification and revision of the prohibition law will be sponsored in the new congress, it became apparent today.

The liberalizing proposals will range from repeal of the Eighteenth Amendment, suggestions for a new amendment giving the states control over alcoholic liquors, to beer bills and modification of the Volstead Act. The liberals probably will rally behind a beer bill increasing the alcoholic contents of malt beverages to a percentage much higher than one half of one per cent now permissable, but still within the non-intoxicating limits of the constitution.

Changes Suggested

Two changes in the constitution will be suggested by Senator Bingham (R) of Connecticut, leader of the Senate "wet" bloc. He will ask congress to submit a new amendment to the states, repealing the Eighteenth Amendment; placing the liquor issue directly under control of the states and giving the Federal government power to halt liquor traffic between wet and dry states. He will suggest a new amendment as well, empowering the people to vote on constitutional changes.

The League for Modification of the Volstead Act meanwhile will concentrate on changing the dry law to permit sale of 4 per cent beer and 14 per cent wines. Early in the session, identical bills will be introduced in house and senate, exempting from penalties the manufacture, sale and transportation of such beer and wine.

Federal Revenues

A novel feature of the League's bill, differing from similar measures in the past, will be a provision for collecting Federal revenues from the sale of legalized beer and wine. The bill would impose a Federal tax of 10 cents a gallon on beer and 20 cents a galon on wine. Import duties would be levied too, at 20 cents a gallon on imported beer and 40 cents a gallon on imported wine.

One feature of the bill will be drawn to satisfy prohibitionists. This would permit each state to determine for itself whether it would take advantage of the proposed liberalizing provisions. It would carry also a Federal penalty for the transporting the more liberal beer and wine into any dry state.

Congress Must Act

The Association Against the Prohibition Amendment probably will sponsor other proposed dry law changes. Individual senators and representatives, opposed to prohibition, will add their personal bills. Half of the proposed changes may never get a hearing before the committee, but liberal leaders have insisted that the new congress will have to pass upon one or more of the wet measures—even if for no other reason than that of placing congress directly on issue on the prohibition issue.

Board Zoning Appeals Hears Case Tuesday

Appeal Is Granted As A Result Of A Compromise Made By Interested Parties

Board of Zoning Appeals held a regular monthly session Tuesday afternoon and in spite of the fact that there was but one case to be heard, the board was in session something like two hours, owing to the complicated nature of the case.

It was the case of Mrs. G. A. Blackford, 1012 Delaware avenue, who appealed from the decision of the city engineer, who declined to grant her permission to construct a garage attached to her home, because of the fact that to do so would be a violation of the zoning regulation concerning the rear yard area.

There were objections filed to the granting of the appeal and both sides in the controversy were represented by attorneys. Mrs. Blackford sought permission to construct a garage 12 by 18 feet attached to the northeast corner of her home, corner of Delaware and Winter avenues, with entrance from Winter avenue.

Principal objection to the building of the garage was made by R. L. Meermans on the grounds that the garage as proposed would darken the interior of his home, his property being to the east of the Blackford property. Another objection was the effect that it would have on the appearance of the district.

It was suggested that the logical place for the proposed garage was at the southeast corner of the Blackford lot and drive in from Delaware avenue. This was shown however as not being feasible, owing to difficulty that would be experienced in driving into the garage.

The board finally reversed the decision of the city engineer, when a compromise agreement was reached, under which the garage was to be turned about and placed at the southeast corner of the lot, with drive from Winter avenue and four feet from the east of Meerman's property and one foot in from the south property line of Mrs. Blackford. A permit will be issued to build the garage in accordance with this agreement.

SECOND CROP OF OATS IS GROWN

One of the freaks produced by nature as a result of the unusual weather conditions this fall, is a second crop of oats which grew on the Lawrence Black farm along the Cleland Mill road in Big Beaver township.

The second growth sprang up from seed dropped during the harvest this summer, and has reached a height of around thirty inches, with the grain in the seed pods almost ripe. Mr. Black brought several stalks to The News office Tuesday afternoon as a proof of the unusual phenomenon.

Start Codifying Of New Spanish Laws

Spain's New Republican Constitution Is In Process Of Framing

Cortes Gives Approval — New President Will Be Named Next Tuesday

By THOMAS A. LOAYZA
International News Service Staff Correspondent

MADRID, Dec. 2.—Approved by the Cortes, Spain's new Republican constitution was being codified today and was scheduled to be submitted on Friday for final adoption.

The national assembly completed its task of drafting the constitution by defeating a measure, which would have limited the right of women's suffrage. No further amendments were offered and the constitution was then declared approved.

To Elect President

On next Tuesday the provisional regime, which came into power with the abdication of King Alfonso, will turn the administration over a constitutional government. This will be accomplished by the election of a president, with former provisional President Niceto Alcala Zamora already regarded as the almost unanimous choice of the Cortes.

Zamora resigned the presidency during the struggle over the anti-clerical provisions of the constitution, but has been asked by the cabinet to again assume the office. The present provisional president, Manuel Azana, probably will remain in the cabinet as minister of war.

The Cortes has been steadily at work on the new constitution since July 14, endeavoring to establish a modern system of government to carry out the preliminary constitutional declaration that Spain is a "Republic of the workers of all classes."

NEIGHBORLY SPIRIT

(International News Service)

DENVER, Dec. 2.—Charley Green is convinced that the old-fashioned spirit of neighborliness still prevails in Denver. Recently a fire destroyed Green's greenhouse and left $3,000 worth of valuable flowers exposed to the frost. Other florists came to his assistance. Several Denver corporations assigned crews of workmen to help him. By night the greenhouse had been rebuilt and the flowers were safe under glass. It was a hard 15 hours work for 75 men, but Green's business was saved.
